Laboratory Technician

Description

We need a Lab Technician! Our lab technicians are the heart of our quality control system. These skilled workers perform production sample analysis insuring the quality and consistency of our proppants & aggregates. They maintain production samples, track results electronically and deliver any samples issues or concerns to load-out & plant operators.

Primary Responsibilities

They operate specialized equipment including digital microscopes, computerized tracking systems, shakers and separators. They are required to:

- Maintain hourly production samples and track production results
- Qualify all samples, test plant feed, waste product, and Wet & Dry plant products
- Collect samples from trucks, rail cars or barges and crushing line
- Perform analysis on samples to ensure compliance with quality standards
- Ensure proper upkeep and calibration of lab instruments and sampling/testing equipment throughout plant
- Maintain database of lab sample processing data
- Train co-workers to perform quality control functions
- Ensure testing is completed in accordance with established procedures
- Follow all MSHA standards
- Perform other duties to support plant & load-out operations as needed

Qualifications & Requirements

This position requires that the applicant have the following qualifications:

- Able to safely wear a half face mask for up to 12 hours
- Work up to twelve hour shifts
- Able to climb considerable amount of stairs
- Ability to lift and carry 25lbs
- Must be able to communicate and coordinate with co-workers and supervisors
- Must be willing to work in a team environment and in close quarters with another lab partner.
- Ability to accurately handle numerical analysis
- Proficient in computer and data entry skills
- Must be proficient speaking and writing english

Education & Work Experience

- High School diploma required
- Applicants with a 2 year technical degree or previous experience will be given priority.

Credentials & Licenses Required

- Part 48 MSHA required. Training available onsite.
