Dryer Plant Operator

Description

We are looking for a Dryer Plant operator in our Clayton, Iowa facility. The Dryer Plant is responsible for producing a super-fine grade sand called 100 mesh. 100 mesh is dried and loaded onto trucks at the Dryer Plant. Our Dryer Plant Operators are crucial to our operations efficiency and production flow. This position requires the operation of plant process equipment with the use of automated controls, quality control analysis, and data entry. They prevent breakdowns by properly monitoring equipment and performing effective proactive maintenance. This allows our operations to proceed without down time due to dryer breakdowns and repairs. This is a career position working as a member of a great team with an established company that offers excellent salaries and full benefits!

Primary Responsibilities

- Operate plant processing and drying equipment such as: conveyors, rotary dryer, and loadout
- Meet or exceed processing and quality marks safely
- Operate the wheel loader
- Quickly and accurately collect and analyze data in order to make process changes and improvements when needed
- Work in a safe team environment and take on new responsibilities when assigned
- Assist in coordination of daily activities related to production and maintenance
- Ensure all production data, inspections, shift logs are complete and accurate
- Comply with all company, local, state and federal compliance safety rules

Qualifications & Requirements

Must have the ability to:

- Physically operate heavy equipment
- Proficiently speak and write English
- Stand for 6-12 hours on uneven sandy/rocky surfaces and bend or stoop
- Work up to 12-hour shifts
- Climb on and off equipment and ladders
- Work at heights
- Wear a half-mask respirator for up to 12 hours at a time
- Lift 60 to 80 pounds without mechanical assistance
- Self-motivate and work with minimal supervision
- Work in damp, dimly lit and confined work areas
- Demonstrate knowledge of process equipment
- Excellent written and verbal communication skills
- Strong ability to use Microsoft Office Suite, specifically Excel, Word, and Outlook for communication and analysis
