Heavy Equipment Diesel Mechanic

Description

We're looking for experienced Heavy Equipment Diesel Mechanics to maintain our fleet on Day Shift or Night Shift. The successful candidate will perform repair & maintenance, run diagnostics on equipment and vehicles, complete machine repairs, and dismantle and reassemble entire engines. This is a great opportunity for a knowledgeable, hardworking individual to apply his or her skills in a company that offers a competitive salary and comprehensive benefits.

Primary Responsibilities

Heavy equipment diesel mechanics work primarily in our main shop building. They are required to:

- Perform regular maintenance, minor and major repairs on heavy equipment and trucks
- Determine equipment condition by conducting inspections and diagnostic tests and identify worn and damaged parts
- Correct equipment deficiencies by removing, repairing, adjusting or overhauling equipment and systems
- Maintain accurate records of each repair performed
- Adhere to all applicable safety policies and complying with all company policies, procedures and standards
- Maintain cleanliness in the shop
- Collaborate with repair team to diagnose problems with vehicles and plan repairs

Qualifications & Requirements

This position requires that the applicant have the following qualifications:

- Able to work up to 12 hour shifts
- Proficient speaking and writing english
- Must be self-motivated and able to work with minimal supervision
- Able to communicate and coordinate with co-workers and supervisors
- Have high safety standards for self and others
- Willing to work any assigned shift, overtime, weekends and holidays
- Able to stand for 6-12 hours on uneven sandy/rocky surfaces
- Able to lift 60 to 80 pounds without mechanical assistance
- Able to bend or stoop
- Able to climb on and off equipment and ladders
- Able to work at heights
- Able to work in damp, dimly lit and confined work areas
- Able to safely wear a half face mask for up to 12 hours at a time

Education & Work Experience

- High school diploma desirable but not required
- ASE Diesel Certification a plus
- 2 year technical degree or prior experience will be given priority
